## Fools Gold Publications: News for the Clampers of the Great Northwest

We saw the need for a newsletter, to keep everyone up on current Clamper goin' on's, and keep brothers who are unable to attend meetings informed of the good, the bad, and the ugly. Also to let the brothers that aren't involved know what they're missing. Hopefully by connecting with the brethren this way we can all stay better informed and help promote the growth of the Ancient and Honorable Order of E Clampus Vitus!

## SEPTEMBER 2008 DOINS

Our September doins are always and adventure. September 2008 was no different, from the time that I arrived, PBC in custody it was a party for the record books. One visitor from chapter 13 in California Royce "CRASH" McCormick told me that he was skeptical of the new strict rules that have been enforced by Grand Council but DOC really pulled it off. He said "that was one of the best doins I have ever been to and I would love to come back to another DOC doins someday."

It was another out standing time awesome showing of red shirts. The Washington boys brought in several new members, in fact two of our brothers decided to retread. For you new brothers that is when a red shirt pulls off his red and goes through the initiation

again as a PBC. When I asked them why they wanted to go through the initiation again they both said that they decided that doc Maynard chapter 5440 was their home chapter now and this is how they wanted to show it.

There was three gallons of apple pie this year I Tony "CRASH" Carlson, Dragon, and Uncle D. all brought a gallon of our finest everyone of course has their favorite and for the three of us I think that is safe to say that it is our own. Not only did we have great booze but an out of this world menu all week end. Only in Washington boys!

All in all it was a good week end as to be expected after a long weekend of drinking heavily there were several arguments but nothing real bad they ended up working them

HOCO

selves out, and a couple of misunderstandings that needed a helping touch but also got worked out it was another very satisfactory doins.

Sorry that the details are a little vague but not only is my memory fuzzy but it has been several months since the doins. Ill try to do better in the future.

## 2008 WIDDERS BALL

On October 18, 2008 Doc Maynard Chapter 5440 of E Clampus Vitus had our second annual Widders Ball. As always the men of Doc made an out standing spread consisting of but not limited to Prime rib cooked to perfec-

tion, chicken, rolls various salads and cake for desert. I apologize for not remembering all of the salads at this point lets just say I had already sampled some of Docs finest tonics.

## WIDDERS BALL CONT.

The infamous Slippery made another appearance and never disappoints and neither does Easy's mix logy skills. Thank you to all of the brothers that chipped in behind the bar. The apple pie made another appearance it wasn't my normal recipe and several people told me they liked my normal apple pie recipe better while they were taking another drink SATISFACTORY.

On not such a good note there were several balls dropped and it is not apparent who dropped them. Not to look for someone to blame, I don't think that it is fair to blame one person I think that maybe all of us are a little to blame for our lack of participation maybe if we got more involved as a hole and not leave all the work up to the same few guys all the time. That is not fair and shouldn't

CRASH AND KERI WITH THE APPLE PIE

be that way. The band never showed up and no one knows why. Thank you to what ever brother it was that brought in their CDs so we at least had some background noise. Now I don't know that might have all fell on the band, all I have heard is that no one knows. It was just sad not to see anyone dancing I know that several people were bummed about that especially my wider. And what happened to the best costume, it was advertised and the people that asked about it kept getting told that it was later and that the prize was a surprise. Come on guys this is not like us. enough about the negative.

The clean up from what I heard went pretty good there were a couple discrepancies

that could not have been changed. All in all from what I gather the Eagles were more or less happy with our clean up. Thank you to those brothers that stayed and cleaned up after us drunks.

I just want to touch on the participation again a little bit. We as a group really need to step up the same guys that did all the work for the widders ball and the same guys that do all the work at the doings. I think that it is about time that these guys get to party and enjoy some of their time at our functions. We also need more people to come to these functions. I don't know how many know that the ball was almost canceled because not enough people spoke up, paid up basically the chapter didn't know who was going to come and when you are talking about spending that much on food and then maybe only have a couple couples show it is a big risk.

So from me and I am sure the rest of the brethren to everyone who worked tirelessly thank you from the bottom of our mugs we raise our

## WHO THINKS OF THIS CRAP CORNER

**Why do people keep running over a string with their vacuum cleaner, then reach down, pick it up, examine it, then put it down to give the vacuum one more chance?**

## 1932 Helicron

In the late 1930s this one-of-a-kind Helicron was placed in a barn and forgotten. More than six decades later this odd lost little gem was rediscovered, rebuilt, and reintroduced to the world. Although the manufacturer is unknown, it's believed that this car was built in France 1932. Following the first World War it was not uncommon for recently displaced airplane engineers to

look towards the automobile industry for employment. As in this example, a few entrepreneurs developed propeller-powered cars with the notion that propeller power was an efficient means of moving a vehicle. On this car, when the wooden propeller is spinning at full speed and efficiently, this little 1,000-pound boat-tailed skiff can hit freeway speeds exceeding 75 mph. This is the one and only Helicron in existence, owned by Lane Motor Museum in Nashville, TN.

### JOKE OF THE MONTH

A woman was standing in front of a mirror naked. She told her husband that she was fat and ugly. She Said to him "give me a complement." he replied. "Honey you have perfect vision."

### QUOTE OF THE MONTH

## X-PBC'S Account of the 2008 Doins

Prepare to die..... Well that's what the PBC's were thinkin' anyway. The Fall 2008 Doin's was a success. A bunch of poor bastards had a great time, with good down home cookin', (Best grub I ever had at a doin's anywhere! Quote from Royce

"Crash" McCormick, member of several chapters down south and a Clamper for over 20 years) and great people! We had several visitors from other chapters as well, and we appreciate all there support. What more could ya ask for! Brothers suportin' brothers.

(\*A special thanks to Buzzard for once again hosting a fantastic gathering of the Brethren! Without his support, this fine doin's

would not have been possible. So raise a glass to brother Buzzard!) Brother Buzzard has also extended an invitation for the brethren to use his land again for the Fall 2009 doin's.
